Who Qualifies for Virginia Medicaid Under Expansion?

Medicaid expansion will provide quality, low-cost coverage to ~ 400,000 Virginians

- Adults ages 19 – 64, not Medicare eligible
- Income from 0% to 138% Federal Poverty Level

Overview of New Health Coverage for Adults

- Beginning January 1, 2019
- Approximately 400,000 more Virginia adults will enroll in quality, low-cost health coverage
- People working in retail, construction, childcare, landscaping, food service or other jobs that do not offer health insurance may be eligible

Who Are Virginia's Uninsured?

Recent focus groups with uninsured adults in Virginia who have incomes below 138% FPL offered key findings:

- Cost has been the main barrier to coverage as well as working in jobs or for employers that do not offer coverage
- Most have been putting off getting health care services, paying out of pocket at a clinic when sick, or going to ERs when they become seriously ill
- The new adult population has a strong interest in enrolling in Medicaid and almost all say they will apply
- Most are unaware that Virginia will expand Medicaid
- Many fear “rejection” if they apply, as they have been unsuccessful in the past

Overview of Medicaid Expansion Requirements

The 2018 Appropriations Act directs DMAS to implement new coverage for adults and transform coverage

State Plan Amendments, contracts, or other policy changes

Implement new coverage for adults with incomes up to 138% FPL and implement early reforms for newly eligible individuals

- Cost-sharing reductions for compliance with healthy behaviors

Personal Responsibility
